

CHEMFARM INTERNATIONAL

Product Category - Pigments

Pigment Emulsions

Ready-to-use aqueous colour dispersions developed for uniform coloration, easy processing and consistent performance across textile, paper, paints, coatings and diverse industrial applications.

Pigment emulsions are **finely dispersed pigment preparations in a liquid medium**, designed to provide convenient handling, uniform colour distribution and efficient incorporation into suitable formulations and manufacturing processes.

Chemfarm International offers pigment emulsion solutions focused on **colour strength, dispersion stability, shade consistency and application-specific performance**, supporting manufacturers requiring reliable liquid colour systems.

Key Applications

Paints & Coatings • Industrial Coatings • Textile Printing • Textile Finishing • Paper & Paper Products • Printing Applications • Home Care Products • Industrial Formulations • Specialty Applications

Key Benefits

- Bright & Consistent Shades
- Good Colour Strength
- Uniform Pigment Dispersion
- Easy Handling & Application
- Good Dispersion Stability
- Consistent Shade Reproduction
- Broad Colour Range
- Easy Incorporation into Suitable Formulations
- Suitable for Multiple Industrial Applications

Key Pigment Emulsion Solutions

Pigment Red • Pigment Yellow • Pigment Orange • Pigment Blue • Pigment Green • Pigment Violet • Pigment Black • Application-Specific Shades

Our Supply Commitment

Consistent Quality

Focused on dependable colour strength, dispersion stability and batch-to-batch shade consistency.

Application Expertise

Supporting pigment emulsion requirements across paints, coatings, textiles, paper and other industrial formulations.

Reliable Supply

Supporting manufacturers through a growing Pan-India supply and distribution network.

Global Reach

Developing long-term relationships and supplying customers across international markets.
