

CHEMFARM INTERNATIONAL

Wood Pigments & Dyes

Premium colour solutions engineered for MDF, HDF, HDHMR, plywood and engineered wood applications.

Chemfarm International offers a specialized portfolio of cationic (basic) dyes, pigment emulsions and custom colour formulations developed for consistent colour development in MDF, HDF, HDHMR, plywood and engineered wood products. Our solutions are designed to deliver uniform board coloration, excellent dispersion, high colour strength and reliable manufacturing performance.

Chemfarm Emerald™ – Premium Lush Green Basic Dye

NEW DEVELOPMENT

Chemfarm Emerald™ is Chemfarm International's latest lush green cationic (basic) dye developed for HDHMR, MDF and engineered wood panel colouring.

Applications: HDHMR Boards • MDF • HDF • Decorative Panels • Engineered Wood Products

Features:

- Rich Lush Green Shade
- Excellent Colour Strength
- Uniform Board Colouration
- Good Dispersion
- Suitable for High-Temperature Manufacturing Processes*
- Excellent Shade Consistency
- Liquid Formulation
- Batch-to-Batch Consistency
- Custom Shade Development

Chemfarm M■Violet™

Premium liquid basic dye for MDF, HDHMR, decorative panels and engineered wood products.

Features:

- Brilliant Violet Shade
- Excellent Colour Depth
- High Colour Strength
- Uniform Colour Development
- Excellent Dispersion
- Consistent Manufacturing Performance

Chemfarm M■Green™

Premium green liquid cationic dye suitable for MDF, HDF, HDHMR and decorative boards.

Features:

- Bright Green Shade
- Reliable Shade Reproducibility
- High Colour Strength

- Easy Liquid Dosing

Chemfarm Black Pigment Emulsion Paste

High-strength black pigment dispersion developed for deep black coloration in MDF, HDHMR, particle board, plywood and engineered wood products.

Features:

- Deep Jet Black Shade
- Excellent Pigment Dispersion
- High Opacity
- Strong Colour Strength
- Excellent Batch Consistency
- Stable Emulsion System
- Easy Incorporation
- Suitable for Continuous Manufacturing

Other Custom Colours

Red • Yellow • Orange • Blue • Brown • Grey • Olive Green • Special Wood Shades • Customer-Specific Colour Matching

Key Applications

MDF Manufacturing • HDHMR Boards • HDF Boards • Particle Board • Plywood • Decorative Panels • Laminated Boards • Interior Furniture • Wall Panels • Door Skins • Engineered Wood Products

Key Benefits

- Premium Colour Strength
- Excellent Dispersion
- Uniform Board Colouration
- Excellent Shade Reproducibility
- Batch-to-Batch Consistency
- Easy Liquid Dosing
- Process Compatibility
- Custom Colour Development
- Technical Support
- Pan-India & Export Supply
